ABOUT ME

Motivated, dedicated, and always eager to learn, I thrive on challenges and pushing beyond the ordinary. With a constant drive for personal growth, I'm excited to adopt new skills and technologies, continually striving to reach new levels of success. I believe that persistence and a positive mindset are key to overcoming obstacles, and I approach every opportunity with enthusiasm and a readiness to excel.

EDUCATION AND TRAINING

16/10/2023 – CURRENT Skopje, North Macedonia
FULL-STACK DEVELOPER Qinshift Academy - Programming

I have a strong foundation in web development, with hands-on experience in both front-end and back-end technologies. I specialize in building modern, responsive, and efficient applications that provide exceptional user experiences. My expertise spans several key areas, making me a versatile and valuable asset to any development team:

- **Front-End Development**: Proficient in HTML5, CSS3, and JavaScript, with a focus on creating responsive, visually engaging websites. I utilize frameworks like Bootstrap and Tailwind CSS to build user-friendly interfaces across all devices. I also have experience with Figma for designing intuitive layouts and Framer Motion for adding dynamic animations.
- **Back-End Development**: Skilled in developing scalable server-side applications using Node.js, Express.js, and NestJS. I have experience managing databases with PostgreSQL and MongoDB, and use TypeORM to handle data efficiently.
- **Full-Stack Development**: Experienced in integrating front-end frameworks like React and Angular with back-end technologies to deliver comprehensive, end-to-end solutions. My full-stack expertise allows me to seamlessly handle both client-side and server-side development.
- **TypeScript Proficiency**: Adept at writing clean, maintainable, and type-safe code with TypeScript, which enhances the reliability and scalability of applications.
- **API Development and Testing**: Proficient in building and consuming RESTful APIs, ensuring smooth communication between front-end and back-end systems. I use Postman for thorough API testing and GitHub for version control to maintain high-quality code.

With my well-rounded skill set, I am ready to contribute effectively to a dynamic development team. I'm highly adaptable, always eager to learn, and continuously apply the latest technologies and best practices to drive innovation and deliver outstanding results.
